

Before beginning any stretching program, check with your healthcare provider. If you question any of the following stretches, or feel any discomfort while doing any of these stretches, stop doing the stretch(es) immediately and check with your healthcare provider before continuing.

Many parts of your job are physically demanding and may lead to discomfort. Done consistently, these stretches can compensate for awkward positions (such as working overhead or bent over), maintain or increase flexibility, and improve circulation.

Stretch before and during your workday. Stretch **s-l-o-w-l-y** and gently, don't bounce, and don't hold your breath. Hold each stretch 3-5 seconds. And, don't forget to do both right and left sides.
